

MAGNETIC VALVE BOX LIFTER

Powerful magnets lift heavy manhole covers with ease.

The powerful rare earth magnets and exclusive magnetic switching system featured in the Utility Lift System allows for a safer solution to the problem of removing, moving and replacing manhole and valve box covers. Injuries are drastically reduced, as well as the time it takes to deal with heavy, cumbersome covers.

The powerful magnets and lightweight, ergonomic design of our Magnetic Valve Box Lifter makes it possible to safely and easily move heavy and awkward valve box covers.

Simply apply the Magnetic Valve Box Lifter to the box cover, hold it in place with your foot, push handle down and turn until it locks to activate the magnet. The cover can now be easily lifted off. Reverse the procedure to replace the cover.

FEATURES:

- Easy on/off switch activates magnetic power instantly
- Removes valve box covers in less than 60 seconds
- Handle locks for safety
- Rated for cast iron covers less than 50 lbs.
